

NAVAL BILL HITS ROOSEVELT AND STAFF OFFICERS

Only Men of the Line Can Command Warships Under Hale Measure in Senate.

BEARS OUT BROWNSON.

Senators Call for Full Airing of Trouble Between President and Admiral.

WASHINGTON, Jan. 8.—A bill the passage of which it is expected will work many important changes in the personnel of the navy and greatly increase its efficiency was introduced today by Senator Hale, chairman of the Senate Committee on Naval Affairs. It proposes a settlement of the vexatious question recently made prominent through the resignation of Rear-Admiral Brownson as chief of the Navigation Bureau, as to whether the members of the staff corps shall have rank with the line officers; puts an end to the creation of bureaus by the Secretary of the Navy, and gives a substantial raise in pay to every commissioned officer and enlisted man of the navy and the Marine Corps.

There is an important section relating to the appointment of midshipmen to the line and staff corps, and also a provision calling for the retirement of officers of certain age.

The first section of the bill deals with the bureau question by granting authority to bureaus now existing to continue to transact the business assigned them, and requiring that all reports and recommendations shall be made direct to the Secretary of the Navy.

Against Roosevelt.

There is then added the provision that "no permanent board of any kind shall be hereafter appointed by the Navy Department or continued in operation unless expressly provided for by law, but from time to time the Secretary of the Navy may convene boards for temporary service connected with the pending business of the department."

That part of the bill which relates to the assignment of line rank to officers of the various divisions of the staff corps contains provision that they shall in no instance assume command of any vessel. The section is as follows:

"That officers in the various staff corps of the navy shall hereafter have actual rank and title as now established for the staff corps of the army. Such officers of the staff corps of the navy shall at all times have the title and designation of their rank, and new commissions in accordance therewith shall be forthwith issued to them, provided, that this provision shall in no case carry with it command over any vessel of the Navy Department, but such command shall be exercised only by the line officers."

The provision forbidding the command of warships by staff officers is directly aimed at the President, who, in the order of merit at graduation, to fill vacancies in the lowest commissioned grades of the line and other corps of the navy to which such graduates are eligible for appointment under existing law, and that the merit of graduates who do not receive such appointment shall be given a certificate of graduation, an honorable discharge, and the right to pay, and hereafter any midshipman whose position in his class entitles him to be retained in the service may, upon his own application, or honorably discharged at the end of the four years' course at the Naval Academy, with a proper certificate of graduation.

Under these provisions of the measure officers may be retained on application after thirty years' service, and commissioned officers after forty consecutive years.

All Salaries Go Up.

The bill requires that any officer of the navy who is now serving, or who shall hereafter serve as chief of a bureau of the Navy Department, and shall subsequently be retired, shall be retired with the rank, pay and allowances authorized by law for the retirement of such bureau chief, and the following section of the bill provides substantially increases of pay to men throughout the Navy and Marine Corps.

That the pay of all commissioned officers, warrant officers, midshipmen and pay clerks in the Navy and Marine Corps is hereby increased 20 per cent. And the pay of all non-commissioned officers, mates and other petty officers, musicians and other enlisted persons in the Navy and Marine Corps is hereby increased 40 per cent. The bill also provides that the word "pay" as used in this section shall be exclusive of all additions in the form of allowances and commutations.

Tiltman Wants Light.

The introduction by Senator Hale today of his Navy Personnel bill proved the occasion for a very general discussion of the navy and recent occurrences in connection with that branch of the government.

In presenting the measure the Maine senator entered upon a full explanation of its provisions, and before he proceeded for its adoption, he asked the reasons for its adoption. He asked the committee, to say whether the consideration of the bill would probably bring out the facts relating to the controversy in the Navy Department.

Mr. Tiltman added that he considers the advisability of offering a resolution for such an investigation.

Mr. Hale replied that the bill would prompt discussion, but would likely lead to a full airing of the subject.

Mr. Tiltman referred to magazine ar-

DOANE STATUE IS UNVEILED IN NEWARK

Thousands Pay Tribute to Memory of Monsignor Who Was Revered by All.

NEWARK, N. J., Jan. 9.—To pay tribute to the memory of a noted and loved priest thousands of Catholics in this city and nearby towns gathered this afternoon in Rectory Park at the unveiling of a statue to the late Mr. George H. Doane, who was rector of St. Patrick's Cathedral at the time of his death.

Mr. Doane was the son of Right Rev. George Washington Doane, who was Bishop of the Protestant Episcopal diocese of New Jersey. He became an Episcopal minister and was assigned to Grace Church in this city as assistant. He embraced the Catholic faith and was baptized in St. Patrick's Cathedral in 1855, when he was twenty-five years of age. He was ordained a priest in 1857 by Bishop Bayley, of this city. At the outbreak of the civil war Father Doane was appointed chaplain of the First New Jersey Volunteers. He was active in founding many churches and schools in this city, and was loved by every Catholic in the city and revered by people of other religious denominations. He died in this city in January, 1885, at the age of seventy-four years.

Prominent citizens and clergymen occupied seats upon the platform during the unveiling exercises this afternoon. Grand Marshal William F. Mullen divided the parade in two divisions. There were more than a thousand men in line in the parade, which started from Lincoln Park shortly after 1 o'clock.

The Young Men's Catholic Club, of which Mr. Doane was president for forty years, occupied the post of honor. Survivors of the Runyon, First New Jersey Volunteers, were also in line as were delegations from various Catholic societies.

Doane Gardner, a grandnephew of Mr. Doane, pulled the cord which drew the veil from the statue, and then ex-United States Senator James Smith, Jr., presented the statue to the city, and Mayor Hanning accepted the statue on behalf of the city.

A new Bellevue Girl Calendar next Sunday. Every person who got last Sunday's Bellevue Calendar will want it. Those who did not get last Sunday's should start now. Get the set. Ten colors. Extra quality paper.

AMERICANS ON CHILIAN CRUISER TO MEET FLEET.

SANTIAGO, Chile, Jan. 8.—The cruiser Chacabuco, instead of the Esmeralda, as previously announced, will go down to Punta Arenas, on the Strait of Magellan, to welcome the American battleship fleet under Rear Admiral Evans to Chilean waters.

She will take John Hicks, the American Minister to Peru, and several members of the legation staff, as well as a number of Chilean officials to welcome the visitors. The Chacabuco will attend the fleet in Chilean waters.

While the two policemen who had rescued Private Whitman were still attending themselves to be congratulated, the city went up in flames. Seven fire engines were in the city, and the fire was under control. Once more Duane and Skane plunged into peril and emerged with arms full of fire. The fire could not be reached them. The neighbors agreed that it was a thriller while it lasted. The damage will be about \$500.

TRAIN WRECK VICTIM DIES.

ATLANTA, Ga., Jan. 9.—Alexander Forrester, of Cleveland, who suffered severe injuries in the Hiram (Ga.) wreck on Wednesday, died at the Atlanta Hospital today.

CHINESE RIOTERS APPLY TORCH TO AMERICAN CHURCH

School Also Burned at Kiah-singfu, but Missionaries Reported Safe.

SHANGHAI, Jan. 9.—Rioters at Kiah-singfu, a town in the province of Chekiang, have burned the Protestant chapel and school there. The official residence of the local Magistrate also was destroyed. The foreigners at Kiah-singfu are safe.

There has been considerable unrest recently in the province, but the disorders have been directed principally against the dynasty.

The Presbyterian Church, South, in the United States has maintained a missionary establishment at Kiah-singfu since 1842. There were three missionaries and their wives, one woman missionary and several native workers at the station, which consisted of two places of worship, three day schools, one boarding school and one dispensary.

The town, which is an important commercial center, is situated on the Grand Canal.
